

NUVACOR VPS comes in 44 colors, including metallic and non-metallic solid colors, wood grains and stones.

Polycarbonate-based sheets which are 48-1/2" x 100" come in two thicknesses:

.020 comes in gloss hardcoated, non hardcoated and matte;
.040 comes in gloss.

Methylmethacrylate-based sheets are 51" x 100", a bonus of 3.41 sq. ft. per sheet, and come standard in two thicknesses and a variety of surface finishes:

1/16" (.060) comes in gloss;
1/8" (.125) comes in:
Gloss vertical usage - non hardcoated;
Gloss horizontal usage - hardcoated;
Semi-gloss
Matte.

All NUVACOR VPS sheets come standard with our NU100 High performance self-adhesive back or with our NU300 non-adhesive back. Nuvacor's self-adhesive back is eco-friendly and releases no VOC's or odors and makes fabrication and clean-up fast and easy.

Additional thicknesses, custom colors and special wood grains and stones are available upon request.

Our products are the environmentally friendly combination of beauty, durability and technical functionality.

For any additional information please visit our website at www.nuvacor.com.

NUVACOR VPS is ideal for use in hundreds of surfacing applications as counter-tops, in-store displays, wall paneling, cabinetry, showers, bathroom walls and custom kiosks.
